Start closing sales like top producers! Have you ever found yourself at a loss for what to say when the gatekeeper asks you what your call is about? Have your palms ever sweated when the decision maker shuts you down with: "I wouldn't be interested"? Has your heart taken a fast dive into your stomach when, at the start of your presentation, your prospect tells you that they've thought about it and are just going to pass? If you're in sales, then the question isn't "Have you ever felt this way?", but rather, "How often do you feel this way? Are you finally ready to learn how to confidently and effectively overcome these objections, stalls, and blow-offs? If so, Power Phone Scripts was written for you! Unlike other books on sales that tell you what you should do (like build value – hard to do when the prospect is hanging up on you!), Power Phone Scripts provides word-for-word scripts, phrases, questions, and comebacks that you can use on your very next call. Learn to overcome resistance, get through to the decision maker, and then, once you have him or her on the phone, make an instant connection and earn the right to have a meaningful conversation. You'll be equipped with proven questions, conversation starters, and techniques to learn whether or not they are even right for your product or service, and, if they aren't, who else in their company or another department might be. Power Phone Scripts is the sales manual you've been looking for: over 500 proven, current, and non-salesy phrases, rebuttals, questions, and conversation openers that will instantly make you sound more confident – just like the top producing sales pros do right now. Gone will be your call reluctance; gone will be your fear of calling prospects back for presentations and demos; gone will be the fear of asking for the sale at the end of your pitch! This practical guide is filled with effective scripts for prospecting, emailing, voice mails, closes, and tons of rebuttals to recurring objections you get like: "It costs too much" "We already have a vendor for that" "I'm going to need to think about it" "I need to talk to the boss or committee" and so many others... More than just phone scripts, this book provides practical, comprehensive guidance that every inside sales rep needs. Conquer concerns, provide answers, motivate action, and be the conduit between your prospect's problems and your solution. Actionable, fun, and designed to work within the current sales environment, this invaluable guide is your ticket to the top of the leader board. With Power Phone Scripts, you will never be at a loss of what to say to a prospect or client. Communication is everything in sales, and being on top of your game is no longer enough when top producers are playing a different game altogether. You cannot achieve winning stats if you're not even on the field. If you're ready to join the big league, Power Phone Scripts is the playbook you need to win at inside sales.

'I Will Teach You To Be Rich' is a practical approach delivered with a non-judgemental style based on the four pillars of personal finance - banking, saving, budgeting and investing - and the wealth-building ideas of personal entrepreneurship.

Cold email is how I started my business. I originally used it to get interviews to gain knowledge on a particular market, then to get feedback on what I was building and finally to get demo calls to gain new customers as well as expand my network as a founder. It's what made my business profitable, so I know first hand that it can be a really lucrative channel when executed properly. The problem is what most people tell about cold email on the Internet is highly subject to the survivorship bias (meaning it worked for them, failing to realize that what really made things work was actually something else), often outdated regarding what works in 2015, at best grossly inaccurate (revealing only half of the story, or tested with just 50 emails), or worse just plain wrong and totally misleading. So be ready for a ride because all those fancy posts you read on the Internet on cold emails won't account for a fraction of what you'll learn in this book. For example: - I'll let you know about the number 1 reason why cold emails fail or succeed (based on real data after analyzing both winners and losers). - I'll explain why almost everyone is wrong in the way they build their cold email campaigns and how to fix this easily. - I'll tell you about every possible ways to build your prospect list - I'll show you how to setup up cold emails so you can get people thanking you for your emails and perseverance while not even spending a second on it. - I'll share with you 5 email sequences built for different purposes and all performing at more than 50% reply rate in 2015. And many more things that will give you all the tools you need to crush it with your cold email campaign.

A practical and anecdotal guide to attracting the most desirable entry-level employees explains how smaller businesses lacking the resources of more powerful companies can master the tactics of top recruiters by offering desirable career opportunities to recent graduates.

"If you need more traffic, leads and sales, you need The Conversion Code." Neil Patel co-founder Crazy Egg "We've helped 11,000+ businesses generate more than 31 million leads and consider The Conversion Code a must read." Oli Gardner co-founder Unbounce "We'd been closing 55% of our qualified appointments. We increased that to 76% as a direct result of implementing The Conversion Code." Dan Stewart CEO Happy Grasshopper "The strategies in The Conversion Code are highly effective and immediately helped our entire sales team. The book explains the science behind selling in a way that is simple to remember and easy to implement." Steve Pacinelli CMO BombBomb Capture and close more Internet leads with a new sales script and powerful marketing templates The Conversion Code provides a step-by-step blueprint for increasing sales in the modern, Internet-driven era. Today's consumers are savvy, and they have more options than ever before. Capturing their attention and turning it into revenue requires a whole new approach to marketing and sales. This book provides clear guidance toward conquering the new paradigm shift towards online lead generation and inside sales. You'll learn how to capture those invaluable Internet leads, convert them into appointments, and close more deals. Regardless of product or industry, this proven process will increase both the quantity and quality of leads and put your sales figures on the rise. Traditional sales and marketing advice is becoming less and less relevant as today's consumers are spending much more time online, and salespeople are calling, emailing, and texting leads instead of meeting them in person. This book shows you where to find them, how to engage them, and how to position your company as the ideal solution to their needs. Engage with consumers more effectively online Leverage the strengths of social media, apps, and blogs to capture more leads for less money Convert more Internet leads into real-world prospects and sales appointments Make connections on every call and learn the exact words that close more sales The business world is moving away from "belly-to-belly" interactions and traditional advertising. Companies are forced to engage with prospective customers first online—the vast majority through social media, mobile apps, blogs, and live chat—before ever meeting in person. Yesterday's marketing advice no longer applies to today's tech savvy, mobile-first, social media-addicted consumer, and the new sales environment demands that you meet consumers where they are and close them, quickly. The Conversion Code gives you an actionable blueprint for capturing Internet leads and turning them into customers.

Instant Wall Street Journal Bestseller! You don't need to be Ivy League educated, have money, be creative, or even have an idea to get rich. You just need to be willing to break the rules. At nineteen, I founded a software company with $119 in my bank account. Five years later, it was valued at $10.5 million. I don't consider myself exceptionally brilliant. I just realized something few people know: You don't need lots of money or an original idea to get really rich. Now, I make more than $100,000 in passive income every month, while also running my own private equity firm and hosting The Top Entrepreneurs podcast, which has more than 10 million downloads. This book will show you how I went from college dropout to member of the New Rich. And I'm

holding nothing back. You'll see my tax returns, my profit and loss statements, my email negotiations when buying and selling companies. It's time to forget your grandfather's advice. I'll teach you how to be a modern opportunist--investor, entrepreneur, or side hustler--by breaking these four golden rules of the old guard: 1.Focus on one skill: Wrong. Don't cultivate one great skill to get ahead. In today's business world, success goes to the multitaskers. 2.Be unique: Wrong. The way to get rich is not by launching a new idea but by aggressively copying others and then adding your own twist. 3.Focus on one goal: Wrong. Focus instead on creating a system to produce the outcome you want, not just once, but over and over again. 4.Appeal to the masses: Wrong. The masses are broke ($4k average net worth in America?). Let others cut a trail through the jungle so you can peacefully walk in and capitalize on their hard work. By rejecting these defunct rules and following my unconventional path, you can copy other people's ideas shamelessly, bootstrap a start-up with almost no funding, invest in small local businesses for huge payoffs, and reap all the benefits.

A consultant to some of America's leading corporations shares key insights and ideas on how to supercharge one's business and career, explaining how to create and develop new opportunities for wealth in any business, enterprise, or venture. Reprint. 50,000 first printing.
