Main Advances in aquaculture  
hatchery technology. Advances in  
aquaculture hatchery technology.  
Geoff Allan, Gavin Burnell. For  
seafood production to meet  
expected demand from a growing  
global population, many more  
millions of tons of seafood will  
need to be produced. The  
expectations for increased product  
from capture fisheries is limited,  
so this rise in production will have  
to come from aquaculture, one of  
the fastest growing food producing  
sectors in the world.
