This student book covers the full diploma including in-depth coverage of the four mandatory units and 11 most popular optional units, giving you the breadth to tailor the course to your learners' needs and interests. Assessment activities give practice for all grading criteria for the units covered.

A tried and trusted Student Book provides core support for learners. Covers all the mandatory units and optional units. The attractive, accessible layout is packed with features, which draw out key points and bring learning to life. Units are presented in topics with plenty of activities and assessment guidance to help learners achieve their potential. Assessment activities and grading will help learners to achieve their potential in internally-assessed units and support external assessment.

A clearly written and easily accessible textbook that encourages independent study, covering all the core material required for the BTEC First Certificate and Diploma. Knowledge-check questions and activities are included throughout, along with review questions and worked mathematical examples, all of which relate to real-world engineering contexts. Students will gain a valuable insight into various areas of engineering technology and related industries, providing a potential springboard to further training, qualifications, or suitable employment. For those students wishing to progress to BTEC National, this textbook covers all the vital material required as a prerequisite to NVQ Level 3. New in this edition: ⚡ Updated in line with the 2010 changes to the BTEC First specifications ⚡ Includes detailed information on assessment, featuring example questions and answers ⚡ Layout and design changes provide extra clarity

This ground-breaking research represents the most complete collection yet on how the hospitality industry is addressing sustainability and ethical issues. Covering supply chain management, innovative sustainability initiatives, CSR programmes, biologically-respectful tourism and Value Creation, Sustainability in Hospitality: How Innovative Hotels are Transforming the Industry presents valuable global viewpoints on embedding sustainability into all aspects of the hospitality industry, and the impact this could have on transforming the sector into an advocate for more sustainable, eco-conscious tourism.The chapters in this edited collection span organizational governance, human rights and labour practices, environment and climate change, fair operating practices, stakeholder engagement, CSR and strategic management. The global reach of the collection brings case studies from China, the US, the UK, Mexico and Italy, while company case studies include Fairmont Luxury Hotels and Sextantio.Sustainability in Hospitality: How Innovative Hotels are Transforming the Industry will be an essential read for academics researching the development of ethically-conscious and sustainable hospitality, and for hotel managers and group CEOs who want to know how sustainability and CSR can be embedded in their day-to-day operations.

Resources designed to support learners of the new next generation BTEC First in Travel & Tourism specification*. Covers all core and mandatory units and a wide selection of optional units. (Units 1-10 in the Student Book and Units 11-13 on the Pearson website.) Each unit of the Student Book is presented in topics to ensure the content is accessible and engaging for learners. Covers of all the underpinning knowledge and understanding needed at level 2 to ensure that leamers are fully prepared for this course. Activities in each unit provide support and clear direction for learners and can be used in the classroom or for independent work. New Assessment Zone guides learners through both internal and external assessment. Practice assignments and assessment guidance help learners to achieve their potential in internally assessed units. We can confirm that Units 11-13 are now available online to everyone who purchases the Student Book. * From 2012, Pearson's BTEC First qualifications have been under re-development, so schools and colleges could be teaching the existing 2010 specification or the new next generation 2012-2013 specification. There are different Student Books to support each specification. If learners are unsure, they should check with their teacher or tutor.

Construction Mathematics is an introductory level mathematics text, written specifically for students of construction and related disciplines. Learn by tackling exercises based on real-life construction maths. Examples include: costing calculations, labour costs, cost of materials and setting out of building components. Suitable for beginners and easy to follow throughout. Learn the essential basic theory along with the practical necessities. The second edition of this popular textbook is fully updated to match new curricula, and expanded to include even more learning exercises. End of chapter exercises cover a range of theoretical as well as practical problems commonly found in construction practice, and three detailed assignments based on practical tasks give students the opportunity to apply all the knowledge they have gained. Construction Mathematics addresses all the mathematical requirements of Level 2 construction NVQs from City & Guilds/CITB and Edexcel courses, including the BTEC First Diploma in Construction. Additional coverage of the core unit Mathematics in Construction and the Built Environment from BTEC National Construction, Civil Engineering and Building Services courses makes this an essential revision aid for students who do not have Level 2 mathematics experience before commencing their BTEC National studies. This is also the ideal primer for any reader who wishes to refresh their mathematics knowledge before going into a construction HNC or BSc.

This introductory textbook shows you how to apply the principles of marketing within the hospitality industry. Written specifically for students taking marketing modules within a hospitality course, it contains examples and case studies that show how ideas and concepts can be successfully applied to a real-life work situation. It emphasizes topical issues such as sustainable marketing, corporate social responsibility and relationship marketing. It also describes the impact that the internet has had on both marketing and hospitality, using a variety of tools including a wide range of internet learning activities. This 3rd Edition has been updated to include: Coverage of hot topics such as use of technology and social media, power of the consumer and effect on decision making, innovations in product design and packaging, ethical marketing and sustainability marketing Updated online resources including: power point slides, test bank of questions, web links and additional case studies New and updated international case studies looking at a broad range of hospitality settings such as restaurants, cafes and hotels New discussion questions to consolidate student learning at the end of each chapter.
