Computer Networking: a Top Down Approach

In these Wireshark labs, students can
running various network applications
using their own computer, or in a lab, and
observe network protocols "in action" --
interacting and exchanging messages with
protocol entities executing elsewhere in
the Internet. Thus, the students and her/his
computer are an integral part of these
"live" labs; students ...

Computer Networking: A Top-Down Approach, Kurose and Ross ...

Our book broke new ground 12 years ago by treating networking in a top-down manner—that is, by beginning at the application layer and working its way down toward the physical layer. The feedback we received from teachers and students alike have confirmed that this top-down approach has many advantages and does indeed work well pedagogically.
