This volume is the sequel to Karl Schefold's *Myth and Legend in Early Greek Art*, and the second in his ambitious project to trace the representation of the Greek myths in Greek art from the beginnings down to the Hellenistic period.

As archetypes of human virtue and vice, the gods and heroes of ancient Greece and Rome have figured prominently in Western culture. In art, they have been portrayed time and time again, especially during the Renaissance, Baroque, and Neoclassical periods. *Gods and Heroes in Art* aims to help museum patrons and art lovers recognize the legendary characters of classical antiquity in art. The characters are each described in entries summarizing their distinctive stories, their special attributes, and the ways in which artists have depicted them. Each entry is richly illustrated with reproductions of works of art in which the god or hero is pictured, giving readers a chance to examine images of the character and to understand the work of art better. The informative guide first surveys the pantheon of the Greco-Roman world, then focuses on characters from the Trojan War and *The Odyssey*. The next sections describe kings, philosophers, warriors, and other historical figures. The book concludes with useful indexes, including a list of iconographic symbols associated with the subjects, and a bibliography of essential resources.

Meet the Original Superheroes. Before there was Batman, Wonder Woman, or Black Panther...there was Indra, Hindu king of gods, who battled a fearsome snake to save the world

from drought. Athena, the powerful Greek goddess of wisdom who could decide the fate of battles before they even began. Okuninushi, the Japanese hero who defeated eighty brothers to become king and then traded it all for a chance at immortality. Featuring more than 70 characters from 23 cultures around the world, this A-to-Z encyclopedia of mythology is a who's who of powerful gods and goddesses, warriors and kings, enchanted creatures and earthshaking giants whose stories have been passed down since the beginning of time—and are now given fresh life for a new generation of young readers. Plus, You'll Learn All About: Dragons: The Hydra, St. George's Dragon, and the Australian Rainbow Snake Giants: Grendel, Balor of the Evil Eye, Polyphemus, and the Purusha with the thousand heads Monsters: Manticore, Sphinx, Minotaur, Thunderbird, and Echidne, mother of the Nemean lion that nearly killed Heracles Underworlds: Travel to Hades, Valhalla, and the Elysian Fields

A retelling of the greatest myths and legends of the ancient Greek gods and heroes for readers of all ages by a celebrated historical novelist. In the ancient past, the Gods and Goddesses of ancient Greece lived on Mount Olympus and ruled the world of mortals. Famous heroes shaped the course of history, beautiful women drew the gazes of gods and men alike, and the gods were both fickle in their favors and breathtakingly generous to those they smiled upon. From Midas' tragic gift to the exploits of Hercules and the curse of Pandora, renowned classicist and historical novelist Robert Graves brings the legends of ancient Greece to life in a lively, accessible way that's sure to appeal to everyone; from children to adults, and from casual readers to serious scholars.

The travelling storyteller combined many talents: scholar, educator, linguist, poet and musician. He showed learning, curiosity and judgement, but most of all he could not resist a good story. True to their original telling and stripped of the sanitization of later centuries, these powerful tales make compelling reading. The traveller's tales are shaped by the landscape, character, tradition and weather of the stops along his journey: standing below the snow-streaked, cloud-capped massif of Olympus, he feels the awe and majesty of the gods. In the wilderness of Thessaly, menaced by bears and wolves, he recognises the cruel, barbarian anger of Achilles and the ferocious extravagance of Hercules. In soft Eleusis, strong wine at the day's end brings him to the Mysteries of Dionysus and the Bacchic frenzy. The Mycenaean ruins impress on him the workings of the hand of fate: the frailty of empire, the waste of the ten year's Trojan war, the horror of Agamemnon's domestic grief. Under the illumination of the startling Greek light the storyteller interprets for his listeners the sense they have of themselves. His stories of myth and legend are the oldest speculations of the first deep-thinking people of Europe. They are also the first and longest-lasting entertainments of the European imagination.

The deities and heroes of the ancient Romans were popular subject matter for the frescoes which decorated the sophisticated villas of Pompeii's wealthy citizens. This richly illustrated volume highlights various depictions of the divine and heroic pantheon of ancient Rome. The text explores both the general characteristics of Pompeian painting and its specific treatment of gods and heroes.

Along with the legends of the Bible and the saints, the myths

# File Type PDF Gods And Heroes In Late Archaic Greek Art

of ancient Greece and Rome have provided a continuing source of inspiration for European artists. This illustrated dictionary includes the most significant figures and themes.

The islands of Britain have been a crossroads of gods, heroes, and kings—those of flesh as well as those of myth—for thousands of years. Successive waves of invasion brought distinctive legends, rites, and beliefs. The ancient Celts displaced earlier indigenous peoples, only to find themselves displaced in turn by the Romans, who then abandoned the islands to Germanic tribes, a people themselves nearly overcome in time by an influx of Scandinavians. With each wave of invaders came a battle for the mythic mind of the Isles as the newcomer's belief system met with the existing systems of gods, legends, and myths. In *Gods, Heroes, and Kings*, medievalist Christopher Fee and veteran myth scholar David Leeming unearth the layers of the British Isles' unique folkloric tradition to discover how this body of seemingly disparate tales developed. The authors find a virtual battlefield of myths in which pagan and Judeo-Christian beliefs fought for dominance, and classical, Anglo-Saxon, Germanic, and Celtic narrative threads became tangled together. The resulting body of legends became a strange but coherent hybrid, so that by the time Chaucer wrote "The Wife of Bath's Tale" in the fourteenth century, a Christian theme of redemption fought for prominence with a tripartite Celtic goddess and the Arthurian legends of Sir Gawain—itsself a hybrid mythology. Without a guide, the corpus of British mythology can seem impenetrable. Taking advantage of the latest research, Fee and Leeming employ a unique comparative approach to map the origins and development of one of the richest folkloric traditions. Copiously illustrated with excerpts in translation from the original sources, *Gods, Heroes, and Kings* provides a fascinating and accessible new

# File Type PDF Gods And Heroes In Late Archaic Greek Art

perspective on the history of British mythology.

The bestselling compendium of ancient Greece's timeless tales and towering figures of mythology from a classics expert. The world of Greek mythology contains some of the most exciting and imaginative stories ever told. In *Heroes, Gods and Monsters of the Greek Myths*, bestselling author Bernard Evslin shares his passion for these fabulous tales and the eternal themes they so beautifully express. In this accessible overview, you'll get to know the iconic gods, heroes, and tragic figures: Zeus, the all-powerful king of the gods; Hera, his cunning and jealous wife; King Midas, whose touch could turn anything into gold; the sculptor Pygmalion, who falls in love with his own creation; and many more. With each story, Evslin brings new life to these legendary characters and the magical world they inhabit. Translated into multiple languages, and with more than ten million copies sold, this invaluable resource has become a classic in itself.
