Abstract. Given a set S of s points in the plane, where do we place a new point, p , in order to maximize the area of its region in the Voronoi diagram of S and p ? We study the case where the Voronoi neighbors of p are in convex position, and prove that there is at most one local maximum.

Good economic decision making is fundamental to the success of business Economic decisions lie at the heart of business. Economics is all about the choices between alternatives and how to weigh up their costs and benefits. Studying this book will help you understand such choices and how to make them successfully when you take up a job or perhaps run your own business. Businesses need to make choices of what and how much to produce, what techniques to use, who to employ, what investment to make, where to locate, what markets to develop and how best to compete with rivals. Economics helps them make the right decisions. But making the right decisions depends on the economic environment in which businesses operate. For example, government policy affects business: whether through taxation, subsidies, training and education, regulation or trade policies. The economic environment is also affected by trade relations and the actions of international bodies such as the World Trade Organization (WTO) and the International Monetary Fund (IMF). Issues such as Brexit, trade deals and migration crucially affect businesses. The book shows you how. You will be studying all these issues and more in this book. It will give you the skills to advise businesses and other organisations on how best to achieve their objectives. The advice of economists is crucial to good decision making. But to give good advice requires understanding issues and assessing evidence. Studying economics helps to give you this understanding and makes you a better problem solver.

Economics seventh edition is all new. A new co author Alison Wride from the University of Exeter has joined the team to build on the well known and well loved previous six editions. The new seventh edition continues to provide a comprehensive and completely up-to-date self-contained introduction to the world of economics.

This book looks at the key economic issues of today; from economic growth to recessions and unemployment; from trade to Brexit; from wages and employment to inequality and poverty; from producing more to caring for the environment; from competition to the domination of markets by powerful firms; from government spending more on what we need to tackling budget deficits. The book is full of case studies and examples and opportunities for you to reflect on your learning. It helps you to develop the skills and knowledge to make you a more effective employee and a more informed member of society.

This new edition of Economics for Business uses up-to-date case studies to examine the key issues facing the business world today. Looking at everything from the impact of the financial crisis to the operation of individual business, the 7th edition illustrates how economic theory relates to real business issues in a clear, accessible and engaging way designed to help students excel. Looking for economics in action? Search online for the Sloman Economics News Site, a blog that's updated several times a week with current affairs and topical stories, all linked to your textbook so you can explore the background to the issues more deeply. John Sloman was Director of the Economics Network from its foundation in 1999 until 2012, and is now Visiting Fellow at the University of Bristol where the Network is based. John is also Visiting Professor at the University of the West of England, Bristol. Dean Garratt is Principal Teaching Fellow in the Department of Economics at the University of Warwick. Jon Guest is a National Teaching Fellow of the Higher Education Academy and a Principal Lecturer in the School of Economics, Finance and Accountancy at Coventry University.
