Problem solving requires two steps: First, figure out why mistakes are being made, then figure out how to make them stop. The rational-actor paradigm assumes that people act rationally, optimally, and self-interestedly. To change behavior, you have to change incentives.

Froeb et al., Managerial Economics: A Problem-Solving ...
Managerial economics, meaning the application of economic methods to the managerial decision-making process, is a fundamental part of any business or management course. It has been receiving more attention in business as managers become more aware of its potential as an aid to decision-making, and this potential is increasing all the time.
