This is for a Mercedes W124, E420, with the M119 V8 engine. This hose is known to cause a leak originating from under the power steering assembly. This hose cannot be seen as you look at the engine, neither from above, nor from below. It goes from under the Power Steering reservoir, down to the Power steering pump inlet.

Mercedes Shop Forum is now PeachParts Mercedes Shop Forum. ASR stands for "Acceleration Slip Regulation" and it is Mercedes way of guarantying that the wheels have equal traction when you need to accelerate quickly. But the ASR system is tied to all of the electronic systems (EA and LH-SFI) in the car, so everything needs to be working otherwise the car is forced into the "limp-home" mode (LH).
