"This capstone is an overview detailing why picture books are effective to use for middle school geography. It documents the advantages to using picture books. These include activating prior knowledge and building background information; motivating and interesting students through emotional connections and relevance; the power in the images; and the opportunity picture books provide for differentiation. This capstone is a curriculum project and a list of picture books suggested for teacher use is provided along with a summary of each book and connection to the 2011 Minnesota Social Studies Standards for 8th Grade Global Studies. A

Access Free Minnesota 8th Grade Global Studies Syllabus

section of instructional strategies and resources for teachers to use with different picture books is included." --

Reveals strategies for helping today's high-school students become an applicant for whom colleges will compete, identifying academic credentials, extracurricular programs, and other achievements that

Access Free Minnesota 8th Grade Global Studies Syllabus

will be favorably received by leading admissions committees.

This publication addresses trends and issues in global education, providing information about what global education is and how to teach it. The publication emphasizes ERIC resources. It offers ERIC Digests about global education and selected items from the ERIC database that exemplify different viewpoints and approaches to global education. It contains a directory of key organizations and World Wide Web sites that provide teacher resources. Designed as a guide for educators who want to include global education across the various subjects of the curriculum, the volume is

Access Free Minnesota 8th Grade Global Studies Syllabus

divided into four parts: (1) "Overview of Global and International Education"; (2) "Institutionalizing Global Education"; (3) "Curriculum, Methods, and Approaches"; and (4) "Appendices." Information about documents in the ERIC database and how to submit documents for the database is appended. (BT)

"In this study the research question was, what strategies are most successful in teaching global warming? It documents one teacher's created classroom activities designed to improve student knowledge on the subject of global warming. The activities were created by integrating strategies identified by John Hattie, which are beneficial to

Access Free Minnesota 8th Grade Global Studies Syllabus

student achievement, with those of Killom, Oluk and Ozalp's strategies for the successful teaching of global warming. Strategies that were proven beneficial, as well as strategies proven not to be beneficial, were identified and studied. Activities and tools for teacher use in the classroom were developed based upon proven successful strategies for increasing student achievement and knowledge of global warming. The activities also support Minnesota State Science Standards at the 8th grade level."--

Published by OpenStax College, U.S. History covers the

Access Free Minnesota 8th Grade Global Studies Syllabus

breadth of the chronological history of the United States and also provides the necessary depth to ensure the course is manageable for instructors and students alike. U.S. History is designed to meet the scope and sequence requirements of most courses. The authors introduce key forces and major developments that together form the American experience, with particular attention paid to considering issues of race, class and gender. The text provides a balanced approach to U.S. history, considering the people, events and ideas that have shaped the United States from both the top down (politics, economics, diplomacy) and bottom up (eyewitness accounts, lived experience).
