Algorithms--often associated with the terms big data, machine learning, or artificial intelligence--underlie the technologies we use every day, and disputes over the consequences, actual or potential, of new algorithms arise regularly. In this book, Florian Jatton offers a new way to study computerized methods, providing an account of where algorithms come from and how they are constituted, investigating the practical activities by which algorithms are progressively assembled rather than what they may suggest or require once they are assembled.

Introduced in 1989 in the campaign to repel the Japanese 4x4 invasion, the Discovery opened up a whole new market for Land Rover, creating its own niche halfway between the traditional rough and ready Land Rover off-roader and the upmarket Range Rover cruiser. Its reputation as a rugged workhorse both on and off-road has ensured that the Discovery has remained one of the worlds best-selling 4x4s since its introduction. This all-color book - part of Haynes best-selling You & Your series that includes the well-received Land Rover Ninety, One Ten & Defender - will fascinate all Discovery owners and enthusiasts.

He's younger than the other racers. His car, the Argonaut, is older. And on top of that, someone doesn't want him to succeed at the School and will do anything to stop him. Now Jason Chaser isn't just fighting for his place on the starting line, he's racing for his life.
