(016, Morten 2019). Once again, the Roy model, suitably augmented to incorporate networks at the origin, can be used to analyze this phenomenon. And once

## Social Networks and Migration

Social networks affect many aspects of the migration process and play a significant role in migrants' lives.

Interpersonal and organizational social ties affect who migrates and to which destinations, the kinds of employment migrants are able to obtain in host countries, and the extent to which migrants are able to remain connected with their

differentials to life-cycle considerations and migration costs. In each of these factors, social networks play a prominent role. It is through social networks that migrants learn about opportunities and conditions in potential destinations; at home, the structure of migrants' social networks shapes their ability and desire to leave.

## Migration and the Value of Social Networks

Relying on insights from the social networks theory and using qualitative data from two migrant sending regions and one migrant destination

## Social Networks and Migration: Theory and Evidence from Rwanda

We establish a new set of stylized facts about the relationship between social networks and migration. Our results indicate that the average migrant derives more utility from

'interconnected' networks that provide social support than from 'expansive' networks that efficiently transmit information.

## Migration and the value of social networks – Data ...

Migration researchers have long recognized that migratory processes do not occur in a vacuum; rather, they are embedded in social networks (e.g., Faist, 2000, Gold, 2001, Massey et al., 1993, Waldinger, 2004), and both migration and networks are embedded within wider international and national legislative, economic, political and social frameworks that structure the actions of individuals and the meanings they attach to them (e.g., Bilecen, 2014, Meyer et al., 1997, Pachucki and Breiger, 2010).
