Celebrating the Arthur Miller centennial year, an eye-catching new Penguin Plays edition of the work that established him as a leading voice in the American theater In 1947, Arthur Miller exploded onto Broadway with his first major work, *All My Sons*, winning both the New York Drama Critics' Circle Award for Best New Play and the Tony for Best Author. The play introduced themes that would preoccupy Miller throughout his career: the relationships between fathers and sons and the conflict between business and personal ethics. This striking new edition adds *All My Sons* to the elegant Penguin Plays series—now in beautifully redesigned covers. Joe Keller and Steve Deever, partners in a machine shop during World War II, turned out defective airplane parts, causing the deaths of many men. Deever was sent to prison while Keller escaped punishment and went back to business, making himself very wealthy in the ensuing years. A sweeping and magisterial four-hundred-year history of both the city and the people who gave birth to the Renaissance. Between the birth of Dante in 1265 and the death of Galileo in 1642, something happened that transformed the entire culture of western civilization. Painting, sculpture, and architecture would all visibly change in such a striking fashion that there could be no going back on what had taken place. Likewise, the thought and self-conception of humanity would take on a completely new aspect. Sciences would be born—or emerge in an entirely new guise. The ideas that broke this mold began, and continued to flourish, in the city of Florence in northern central Italy. These ideas, which placed an increasing emphasis on the development of our common humanity—rather than other-worldly spirituality—coalesced in what came to be known as humanism. This philosophy and its new ideas would eventually spread across Italy, yet wherever they took hold they would retain an element essential to their origin. And as they spread further across Europe, this element would remain. Transformations of human culture throughout western history have remained indelibly stamped by their origins. The Reformation would always retain something of central and northern Germany. The Industrial Revolution soon outgrew its British origins, yet also retained something of its original template. Closer to the present, the IT revolution that began in Silicon Valley remains indelibly colored by its Californian origins. Paul Strathern shows how Florence, and the Florentines themselves, played a similarly unique and transformative role in the Renaissance.

**NEW YORK TIMES BESTSELLER • “A quite extraordinary novel. Colum McCann has found the form and voice to tell the most complex of stories, with an unexpected friendship between two men at its powerfully beating heart.”—Kamila Shamsie, author of Home Fire FINALIST FOR THE DUBLIN LITERARY AWARD • LONGLISTED FOR THE BOOKER PRIZE • WINNER OF THE NATIONAL JEWISH BOOK AWARD • NAMED ONE OF THE BEST BOOKS OF THE YEAR BY The Independent • The New York Public Library • Library Journal From the National Book Award–winning and bestselling author of Let the Great World Spin comes an epic novel rooted in the unlikely real-life friendship between two fathers. Bassam Aramin is Palestinian. Rami Elhanan is Israeli. They inhabit a world of conflict that colors every aspect of their lives, from the roads they are allowed to drive on to the schools their children attend to the checkpoints, both physical and emotional, they must negotiate. But their lives, however circumscribed, are upended one after the other: first, Rami’s thirteen-year-old daughter, Smadar, becomes the victim of suicide bombers; a decade later, Bassam’s ten-year-**

old daughter, Abir, is killed by a rubber bullet. Rami and Bassam had been raised to hate one another. And yet, when they learn of each other's stories, they recognize the loss that connects them. Together they attempt to use their grief as a weapon for peace—and with their one small act, start to permeate what has for generations seemed an impermeable conflict. This extraordinary novel is the fruit of a seed planted when the novelist Colum McCann met the real Bassam and Rami on a trip with the non-profit organization Narrative 4. McCann was moved by their willingness to share their stories with the world, by their hope that if they could see themselves in one another, perhaps others could too. With their blessing, and unprecedented access to their families, lives, and personal recollections, McCann began to craft *Apeirogon*, which uses their real-life stories to begin another—one that crosses centuries and continents, stitching together time, art, history, nature, and politics in a tale both heartbreaking and hopeful. The result is an ambitious novel, crafted out of a universe of fictional and nonfictional material, with these fathers' moving story at its heart.

Democratic policing today is a widely used approach to policing not only in Western societies but increasingly around the world. Yet it is rarely defined and it is little understood by the public and even by many of its practitioners. Peter K. Manning draws on political philosophy, sociology and criminal justice to develop a widely applicable fundamental conception of democratic policing. In the process he delineates today's relationship between democracy and policing. *Democratic Policing in a Changing World* documents the failure of police reform, showing that each new approach - such as crime mapping and 'hot spots' policing - fails to alter any fundamental practice and has in fact increased social inequalities. He offers a new and better approach for scholars, policy makers, police, governments and societies.
