The Fungal Colony British Mycological Society Symposia

Local Fungus Recording Groups now exist in many parts of the country helping to put mushrooms on the map in the UK. They are run on a voluntary basis by enthusiasts seeking to share their knowledge of wild fungi and improve your identification skills. They provide a welcoming environment for new members to enjoy exploring the world of fungi.

Groups :: British Mycological Society

The Society was formed based on the efforts of two local societies, the Woolhope Naturalists' Field Club of Hereford and the Yorkshire

Access Free The Fungal Colony British Mycological Society Symposia

Naturalists' Union. The curator of the Hereford club, Dr. H.G. Bull, convinced the members in 1867 to undertake the particular study of mushrooms. While the mycological efforts of the club diminished somewhat upon the death of Dr. Bull, the Union of Yorkshire took the lead and founded its mycological committee in 1892.

The Fungal Colony (British Mycological Society Symposia ...

Fungi are a huge and fascinating kingdom with over 15,000 species in the UK. They live on land, in the water, in the air, and even in and on plants and animals. They vary widely in size and form, from the microscopically small to the largest organisms on Earth (at several square miles large). Mushrooms (or toadstools) is a term given to the fleshy, spore-bearing fruiting bodies that certain fungi produce.
