that they are growing and maturing into young ladies and there are expectation and rules of life that they must follow to be honest, have good morals, spiritual understanding, practice having and using good manners. You must have everyday etiquette, social skills, civility skills, good personal hygiene, positive personal appearance, communication skills and table manners. All of these positive words that you read in this book can help you develop positive self-esteem and positive self-confidence. Bernetta Watson

Shortlisted for the Grand Prix du livre de Montreal Rosine is surrounded by ghosts. Ghosts of family. Ghosts of past lovers. Ghosts of an old Montreal and its politics. Ghosts of the Montreal quarry workers who, in the 1880s, frequented the Crystal Palace gardens, upon whose ruins her Mile-End triplex sits. Her dead maternal family is there, too, with their restlessness, their stories, their forgotten indigenous ancestry, their little crimes and glories. There ' s even the ghost of an ancient Parisian gendarme lurking in the dark stairwell, peering through her keyhole. Rosine herself may be a ghost, her voice splintered – sometimes a prurient fly buzzing over the action, sometimes a politically correct historian, a woman perpetually travelling on a bus or lying in bed – and so too is our understanding of narrative. In offering up a kaleidoscopic view of Rosine and her city, *The Obituary* fractures our expectations of what a novel should be – allowing the history of assimilation, so violent in the West and so often sidelined by the French–English conflicts of Montreal, to burble up and infect the very language we use. Though a mystery, possibly involving murder, *The Obituary* is less a whodunnit than an investigation of who speaks when we speak. ' A beautiful, challenging poetic novel that is absolutely stunning. ' – Vallum ' Even the understatements are compelling ... though [Scott] balks at being called experimental, this ain ' t your grandmother ' s etcetera. ' – Globe and Mail ' *The Obituary* pushes narrative into uncharted territory. The text possesses a brilliant essence of time, place and flight that pulls the reader in, holds them close and urges them to read between the lines, the impressions, the moments. Ever wonder what it is like spending almost a half-century as a city manager, in cities from coast to coast? It's nothing like that. Douglas W. Ayres did it and, even more important, has written about it.

When the faded Australian 1960 s girly-pop idol Jill St. Brandelis accepts the flirty-eyed advances of a passionate London fan, tabloid dishonor and two fatalities are the shocking upshot of their wretched romantic misadventure. The outrageous particulars behind the appallingly sensationalist tabloid headlines are blushinglly recounted in candid detail by Jill s still remarkably beautiful big sister, the fabled 1960 s pop culture icon Pill Strathspey.

This book is the first in-depth exploration of the revolutionary designers who defined American fashion in its emerging years and helped build an industry with global impact, yet have been largely forgotten. Focusing on female designers, the authors reclaim a place in history for the women who created not only for celebrities and socialites, but for millions of fashion-conscious customers across the United States. From one of America's first couturiers, Jessie Franklin Turner, to Zelda Wynn Valdes, the book captures the lost histories of the luminaries who paved the way in the world of American fashion design. This fully illustrated collection takes us from Hollywood to Broadway, from sportswear to sustainable fashion, and explores important crossovers between film, theater, and fashion. Uncovering fascinating histories of the design pioneers we should know about, the book enlarges the prevailing narrative of fashion history and will be an important

"Ask audience to cut the part of the image on the screen that they don't like. Supply scissors."—Yoko Ono, Tokyo, June 1964 A dazzling range of unconventional film scripts and texts, many published for the first time, make up Scott MacDonald's newest collection. Illustrated with nearly 100 film stills, this fascinating book is at once a reference work of film history and an unparalleled sampling of experimental "language art." It contributes to the very dissipation of boundaries between cinematic, literary, and artistic expression thematized in the films themselves. Each text and script is introduced and contextualized by MacDonald; a filmography and a bibliography round out the volume. This is a readable—often quite funny—literature that investigates differences between seeing and reading. Represented are avant-garde classics such as Hollis Frampton's *Poetic Justice* and *Zorns Lemma* and Morgan Fisher's *Standard Gauge*, and William Greaves's recently rediscovered *Symbiopsychotaxiplasm: Take One*. Michael Snow turns film loose on language in *So Is This*; Peter Rose turns language loose on theory in *Pressures of the Text*. Some of the most influential feminist filmscripts of recent decades—Laura Mulvey and Peter Wollen's *Riddles of the Sphinx*, Su Friedrich's *Gently Down the Stream*, Trinh T. Minh-ha's *Reassemblage*, Yvonne Rainer's *Privilege*—confirm this book's importance for readers in gender and cultural studies as well as for filmmakers and admirers of experimental writing, independent cinema, and the visual arts in general.
